Appomattox sees the light.

The five-year Emergency Light. This space-age miracle represents everything learned with the emergency flashlights supplied for our astronauts on their trips to the moon.

Naturally, it's sturdy. And the great thing about this flashlight is it stays powerful for five years or more. That makes it an excellent flashlight to have on hand for emergencies. Keep it in your glove compartment, on your boat or in your home. In an emergency, the 5-year flashlight will burn 10 to 20 hours.

Another great thing is that it's yours for only $5.00 plus tax when you open a new savings or checking account of $50 or more. (Or add $50 to an existing time deposit). With a one or two-year certificate of deposit of $750 or more, it's yours free.

And besides the flashlight, Fidelity's offering another spectacular space memento. A commemorative manned space flight plaque. This attractive wall plaque gives the dates of our manned space flights, together with the colorful patches from those flights, and a topographical representation of the earth itself.

The plaque is yours for only $12.95 plus tax. The same deal, just deposit $50 or more to a new savings or checking account, or $50 to an existing time deposit. With a certificate of deposit for $5,000 or more, the plaque is yours for only $5.00 plus tax.

Stop in at any Fidelity branch and see both these great offers.

You might also want to check into some of the great banking services we offer. They're out of this world.
